

VICI meeting notes, 2nd of March, 2010

Present: Joost, Catholijn, Koen, Dmytro, Tim, Willem-Paul, Wietske

- Reading group:
 - Will be organized as once in two weeks as a instead of VICI meeting
 - Tim will manage the content of the reading group and put it into our google calandars
 - Catholijn has a right to change the time of VICI meeting/Reading group
- Koen:
 - visited Tilburg, people there are interested in personality testing (“Big 5”) via gaming, e.g., via negotiation.
 - Jonathan Gratch who is interested in the role of emotions in negotiations and automated negotiation strategies, in particular learning opponent’s model
- Willem-Paul:
 - Organizes demo for Junior TUDelft, would like to show Unreal and Genius
 - Chao has working avatar that can simulate “body language” that can be used in the VR negotiation training environment
 - Nils has speech recognition module for VR that can be also used in the VR negotiation training environment
- Catholijn:
 - proposed to have another course on negotiation given by people from Mastenbroek community
- Dmytro
 - will give GENIUS demo (together with Tim and Iris) at ICTDelta’10
 - is organizing a symposium on 7 of june before his PhD defense (VICI team is invited).
- Joost
 - Submitted a journal paper
 - Submitted the “exmplainable AI” paper (“How to cook panecakes?”)
 - Next week we will discuss GUI of PN-0 prototype.
 -
